Overall duplication has substantially dropped. Only 54 shows (red stars) are complete duplications, and 31 (blue stars) are partial duplications. None are serious "offenses" and the great majority are absolutely necessary for efficient operation of the respective services. It is not feasible for BBC to coordinate its direct coverage of Latin America and the Far East 100%. Hedgerock duplications of BBC are on areas where BBC treatment is inadequate or where speed remains an advantage to the Daily Report. I think we are agreed on London-Cyprus duplications as being satisfactorily coordinated.

BBC MONITORING SERVICE : COVERAGE SCHEDULE

(Classified by Country of Origin)

Note: 1. With reference to the "Days Covered" column:
a) where there is no entry coverage is regular;
b) where certain days are shown coverage is not complete but follows a regular pattern;
c) the symbol + denotes irregular coverage;
d) the symbol = denotes regular coverage of one of two alternative bulletins.

2. With reference to the "A.I.R." (Average Intelligibility Rating) column:
a) ratings are given only in cases of variable reception;
b) the following symbols are used:

(5 = Excellent)
4 = Good
3 = Fair
2 = Poor
1 = Unusable
